Holden Industries incorporated in Missouri in 1969, separating from its parent company which dated to the early 1950's. Holden Industries presently builds both commercial and government trailers at two factories in Southwest Missouri. The commercial line includes over 40 standard models plus many custom-designed units. Government models have fulfilled needs of all branches of U.S. Military, as well as NASA, TVA and other domestic and foreign government and quasi-government concerns.
